ALLinONE

OUR UNION IS YOUR STRENGTH.

Our potential is expressed in our complete set of services that are at your disposal. By choosing All In One, you can rely on a global communication approach. A journey that will involve the most suitable expertise with the aim of achieving the goals that we will set together and maximizing the results and not the costs.

We will define the journey with creative and far-sighted ideas, born from the passion, the imagination and the tireless curiosity of dedicated teams. This will allow you to be a step ahead of both your expectations and competitors.

NATURALLY TOGETHER.

People who share the same goals are spontaneously drawn together. This is the thought that has inspired the All in One team, an Italian network joining 12 different communication companies and born to offer the best as far as creativity and organisation of events.

To achieve this, we have integrated our backgrounds of years of experience in diverse areas of communication. This has allowed All in One to be experts of events and promotion, audiovisual and digital marketing as well as to excel in catering and telecommunications services.

Our solutions are always innovative, effective and fast thanks to our streamlined logistics. Our network is proud to have great vision without the need for a large complicated structure.

The integrated communication network

COMMUNICATION has always been in our DNA. All in One's shared and integrated experiences and strength are today at your disposal with several ways to arouse a great deal of interest in your events. We are ready to take care of every single detail of your fairs, festivals and events, with an accurate and complete working method and we will provide value at every juncture in the communication process. All, in one

We use **PR** to communicate your reference target by establishing worthwhile relationships, that are timeless and always state-of-the-art. We range from institutional areas, such as Ministries, Agencies, Associations and Universities, to private business. We work to promote direct contacts with potential and actual interlocutors: we do believe in the power of every meeting.

Each **EVENT** is treated like a decisive moment that will be turned into something spectacular, by making the specific message you are addressing to your stakeholders memorable. Nothing can be left to chance, when organizing an event it is imperative to maximize benefits, limit costs and study every single detail. That is why we take care of: Planning, Designing, Managing of events, Layouts, Audio/video/ lighting services, Catering, Hostess and Translators, Shows and Concerts.

In order to go far away, getting over all cultural and geographical obstacles, any communication activity needs a reliable and precise **LANGUAGE CONSULTING**. All in One is able to offer an accurate service that will allow you to reach your commercial targets wherever they are. Thanks to clear, fast, professional translations and interpreter services, you will be able to widen the bounds of your business.

PRESS OFFICE means communicating contents in a strategic and relevant way by combining the traditional approach (radio, TV, press conferences to launch/present a new product) to a more modern one (just think of the web and social networks). We will set the targets together and define how to reach them.

For us, **WEB DESIGN** does not only mean realising a web site. It means optimizing its structure in order to speed up both the opening and the consultation. It means making it appealing, rich in content and with a dynamic visualization. Because those who visit your website, deserve to be placed at the centre of the experience rather than just visiting a website: for this reason, among our skills, you will also find the design of App (both Mac and Android), CRM/CRS and QR CODE generation.

MULTIMEDIA and AUDIOVISUAL

AIDS have a strategic role within a communication plan. Few things are able to be more emphatic and stir emotions than images.

Videos, sounds and words contribute to the magic that is proper to cinema, involving and enticing your target, creating and strengthening a unique relation. Let the video tell your story and that of your business and you will catch the attention of everybody.

We consider **ADVERTISING** and **PROMOTION** as two of the fastest ways to get straight to the heart of your target. Either we will decide together to choose a B2B or B2C communication or to choose Above or Below the line actions, we will work with you to find out something really special that will make you known, appreciated and unforgettable to both your new and current customers.

CUSTOMER SERVICE is the sum of all functional tools allowing you to get in touch with a customer. It is for this reason we think it necessary to develop customized approaches, tailor made which are closer to your targets. Whether you choose to provide a one2one assistance or decide to provide specific information, what you need, to successfully approach a customer, is a simple but effective strategy. You will therefore be able to select tools such as Help Desk, Toll free numbers, Contests and Promotions, Telemarketing, Electronic payments and E-commerce, Tickets and Reservations, Market Researches.

To be effective, Communication has to amaze with both content and style. We think that using **VISUAL** and **INTERACTIVE** tools, will help to make any communicative activity memorable. A touch screen, an hologram or any advanced means of communication do represent an incredible strength that we would be pleased to offer you.

We believe that a **COMPANY GADGET** has an extraordinary power: every time you look at it or you use it, you cannot but think of the person who gave it to you or relate it to the event you took part in. That is why we think it is crucial to provide a gadget, something that really represents you and which can also be useful. The gadget will help establish a long-lasting relationship with your customer.

The **MATERIALS OF COMMUNICATION** have a key role in helping you to create and consolidate your brand awareness, as well as to introduce yourselves to potential customers in a very original way. Brochures, catalogues, headed letters and business cards, which are devised and designed in line with your business, are essential since they do represent the first impact. That is why they need to introduce you through appealing graphics, brief and succinct texts to tempt potential customers to get in touch with you.
